

The following Awards were provided thanks to our 2011 Special Awards Sponsors

Michel-Sarrazin Award, Association canadienne-française de l'Ontario

Les meilleurs projets présentés en français (best projects presented in French)

Canadian Obesity Network Award

Best project focusing on diet, exercise and obesity issues

City of Kingston Best Environmental Project Award

Best environmental project

CMC Microsystems Award

Best projects related to engineering, application of computers, design, or a project with a significant design/problem solving content

Kingston Field Naturalists Award

Best projects related to observations of, or experimentation concerning, natural history phenomena

Raise a Little Health Award, KFL&A Public Health

Best project showing insight into health promotion

Museum of Health Care at Kingston Award

Best project demonstrating an aspect of a development or discovery in medicine or health care

Nipissing University Award

Most deserving senior project

Novelis Sandra Davison Award

Best single student project demonstrating innovation and creativity

Ontario Association of Certified Engineering Technicians and Technologists Award

Best display of practical application of an engineering concept

Professional Engineers of Ontario Award

Best projects related to engineering

Queen's University Centre for Neuroscience Studies

Best project related to neuroscience

Queen's University Department of Anatomy and Cell Biology

Best project dealing with medicine and/or the human body

Queen's University Department of Biology

Best projects of a biological theme

Queen's University Department of Chemistry

Best project related to pure or applied chemistry

Queen's University Department of Electrical & Computer Engineering

Best project related to an electrical or computer engineering theme

Queen's University Department of Mechanical & Materials Engineering

Best project with a mechanical or materials engineering theme

Queen's University Department of Microbiology & Immunology

Best projects that deal with microbiology and/or immunology

Queen's University Department of Pathology and Molecular Medicine

Best project related to the body's response to disease or tissue damage

Queen's University Department of Physiology

Best project that illustrates physiological principles

Queen's University Engineering Society Science Quest Award

a) Best applied science and engineering project

b) Female demonstrating a desire to pursue a career in an engineering/science domain and presenting an outstanding applied science/engineering project

Queen's University School of Computing

Best computer project

Queen's University School of Environmental Studies

Best projects in environment and sustainability using a multidisciplinary approach

Leo Enright Memorial Award, Royal Astronomical Society of Canada

Best project in astronomy and related sciences

Royal Military College Green Team Award

Best project related to green energy or innovative green practices

Youth Science Ontario awards:

Ontario Association of Medical Laboratories (OAML) Award

Outstanding project displaying use of analytical laboratory methods or exemplary application of the experimental method

University of Ontario Institute of Technology (UOIT) - Innovation Award

Projects demonstrating the most innovative development, adaptation, or use of technology in any subject area

Hydro One - Energy Ambassador Award

Project of outstanding scientific quality where primary focus is the distribution, supply management, use or conservation of electrical energy

University of Ottawa Admission Scholarship

Most deserving senior project to encourage the winner to pursue university studies in health, sciences or technology

Ontario Ministry of the Environment - Environmental Innovator Award

Outstanding project demonstrating a creative approach to an environmental problem that could lead to cleaner air, land or water

Youth Science Ontario Association of Medical Laboratories Award

Outstanding project displaying exemplary use of analytical laboratory methods

University of Ontario Institute of Technology`s (UOIT) Innovation Award

Project demonstrating the most innovative development, adaptation, or use of technology in any subject area

Hydro One Networks' Energy Ambassador Award

Outstanding scientific quality with primary focus on distribution, supply, management, use or conservation of electrical energy

University of Ottawa Admission Scholarship

Awarded to the most deserving senior project to encourage them to study at the Faculties of Engineering, Science, or Health Sciences at the University of Ottawa

Ontario Ministry of the Environment's Environmental Innovator Award

Project demonstrating a creative approach to an environmental problem that could lead to cleaner air, land or water
